# **ADVANCE MANUAL SMART CONTRACT AUDIT**

**Project: BabyPi**

**Website: [babypinetwork.com](https://babypinetwork.com)**

**BlockSAFU Score:**

**82**

**Contract Address:**

**0x2Bb991638681049d76D51A059edaf963239e1C0F**

Disclaimer: BlockSAFU is not responsible for any financial losses.  
Nothing in this contract audit is financial advice, please do your own reasearch.

## DISCLAIMER

BlockSAFU has completed this report to provide a summary of the Smart Contract functions, and any security, dependency, or cybersecurity vulnerabilities. This is often a constrained report on our discoveries based on our investigation and understanding of the current programming versions as of this report's date. To understand the full scope of our analysis, it is vital for you to at the date of this report. To understand the full scope of our analysis, you need to review the complete report. Although we have done our best in conducting our investigation and creating this report, it is vital to note that you should not depend on this report and cannot make any claim against BlockSAFU or its Subsidiaries and Team members on the premise of what has or has not been included in the report. Please remember to conduct your independent examinations before making any investment choices. We do not provide investment advice or in any way claim to determine if the project will be successful or not.

By perusing this report or any portion of it, you concur to the terms of this disclaimer. In the unlikely situation where you do not concur to the terms, you should immediately terminate reading this report, and erase and discard any duplicates of this report downloaded and/or printed by you. This report is given for data purposes as it were and on a non-reliance premise and does not constitute speculation counsel. No one should have any right to depend on the report or its substance, and BlockSAFU and its members (including holding companies, shareholders, backups, representatives, chiefs, officers, and other agents) BlockSAFU and its subsidiaries owe no obligation of care towards you or any other person, nor does BlockSAFU make any guarantee or representation to any individual on the precision or completeness of the report.

### ABOUT THE AUDITOR:

BlockSAFU (BSAFU) is an Anti-Scam Token Utility that reviews Smart Contracts and Token information to Identify Rug Pull and Honey Pot scamming activity. BlockSAFU's Development Team consists of several Smart Contract creators, Auditors Developers, and Blockchain experts. BlockSAFU provides solutions, prevents, and hunts down scammers. BSAFU is a utility token with features Audit, KYC, Token Generators, and Bounty Scammers. It will enrich the crypto ecosystem.

## OVERVIEW

**BlockSAFU was commissioned by Baby Pi to complete a Smart Contract audit. The objective of the Audit is to achieve the following:**

- Review the Project and experience and Development team
- Ensure that the Smart Contract functions are necessary and operate as intended.
- Identify any vulnerabilities in the Smart Contract code.

DISCLAIMER: This Audit is intended to inform about token Contract Risks, the result does not imply an endorsement or provide financial advice in any way, all investments are made at your own risk. (<https://blocksafu.com/>)

## SMART CONTRACT REVIEW

Token Name	Baby Pi Network
Token Symbol	BPI
Token Decimal	9
Total Supply	3,140,000,000 BPI
Contract Address	0x2Bb991638681049d76D51A059edaf963239e1C0F
Deployer Address	0xE7A6e9Eb15Ab1C8C0f59f1b0a546788357eEd49f
Owner Address	0xE7A6e9Eb15Ab1C8C0f59f1b0a546788357eEd49f
Tax Fees Buy	0%
Tax Fees Sell	0%
Gas Used for Buy	<i>will be updated after the DEX listing</i>
Gas Used for Sell	<i>will be updated after the DEX listing</i>
Contract Created	Jul-19-2022 03:57:50 PM +UTC
Initial Liquidity	<i>will be updated after the DEX listing</i>
Liquidity Status	Locked
Unlocked Date	<i>will be updated after the DEX listing</i>
Verified CA	Yes
Compiler	v0.8.7+commit.e28d00a7
Optimization	No with 200 runs
Sol License	MIT License
Top 5 Holders	<i>will be updated after the DEX listing</i>
Other	default evmVersion

## TAX

BUY	0%	SELL	0%
-----	----	------	----

## OVERVIEW

### Mint Function

- No mint functions.

### Fees

- Buy 0%.
- Sell 0%.

### Tx Amount

- Owner cannot set max tx amount.

### Transfer Pausable

- Owner cannot pause.

### Blacklist

- Owner cannot blacklist.

### Ownership

- Owner cannot take back ownership.

### Proxy

- This contract has no proxy.

### Anti Whale

- Owner cannot limit the number of wallet holdings.

### Trading Cooldown

- Owner cannot set the selling time interval.

## Token Metrics

## MANUAL CODE REVIEW

### ● Minor-risk

1 minor-risk code issue found

Could be fixed, and will not bring problems.

1. The return value of an external transfer/transferFrom return value is checked.  
Recommendation: use SafeERC20, or ensure that the transfer/transferFrom return value is checked

```
function transferFrom(  
    address sender,  
    address recipient,  
    uint256 amount  
) external returns (bool);
```

### ● Medium-risk

0 medium-risk code issues found

Should be fixed, could bring problems.

### ● High-Risk

0 high-risk code issues found

Must be fixed, and will bring problem.

### ● Critical-Risk

0 critical-risk code issues found

Must be fixed, and will bring problem.

# EXTRA NOTES SMART CONTRACT

## 1. IBEP20

```
interface IBEP20 {  
    /**  
     * @dev Returns the number of tokens in existence.  
     */  
    function totalSupply() external view returns (uint256);  
    ...  
    function balanceOf(address account) external view returns (uint256);  
    ...  
    function transfer(address recipient, uint256 amount) external returns (bool);  
    ...  
    function allowance(address owner, address spender) external view returns (uint256);  
    ...  
    function approve(address spender, uint256 amount) external returns (bool);  
    ...  
    function transferFrom(  
        address sender,  
        address recipient,  
        uint256 amount  
    ) external returns (bool);  
  
    /**  
     * @dev Emitted when `value` tokens are moved from one account (`from`) to  
     * another (`to`).  
     *  
     * Note that `value` may be zero.  
     */  
    event Transfer(address indexed from, address indexed to, uint256 value);  
    ...  
}
```

IERC20 Normal Base Template

## 2. SafeMath Contract

```
library SafeMath {
...
    function add(uint256 a, uint256 b) internal pure returns
(uint256) {
        uint256 c = a + b;
        require(c >= a, "SafeMath: addition overflow");
        return c;
    }
...
    function sub(uint256 a, uint256 b, string memory errorMessage)
internal pure returns (uint256) {
        require(b <= a, errorMessage);
        uint256 c = a - b;

        return c;
    }
    /**
     * @dev Returns the multiplication of two unsigned integers,
reverting on
     * overflow.
     *
     * Counterpart to Solidity's `*` operator.
     *
     * Requirements:
     *
     * - Multiplication cannot overflow.
     */
...
    function mod(
        uint256 a,
        uint256 b,
        string memory errorMessage
    ) internal pure returns (uint256) {
        unchecked {
            require(b > 0, errorMessage);
            return a % b;
        }
    }
}
```

Standard Safemath contract

### 3. Baby Pi Contract

## READ CONTRACT (ONLY NEED TO KNOW)

### 1. decimals

9 uint8  
(Shows Contract Decimals)

2. name  
Baby Pi Network string

3. owner  
0xe7a6e9eb15ab1c8c0f59f1b0a546788357eed49f address

4. symbol  
BPI string

5. totalSupply  
3140000000000000000 uint256

## WRITE CONTRACT

1. collect

contractAddr (address)

(The form is filled with the contract address to send balance value from owner address to contract address - **contractAddr**)

2. collectBNB

call contract (Write)

(The button used to trigger get BNB from this contract - if if someone made a mistake by transferring bnb balance to smart contract)

3. renounceOwnership

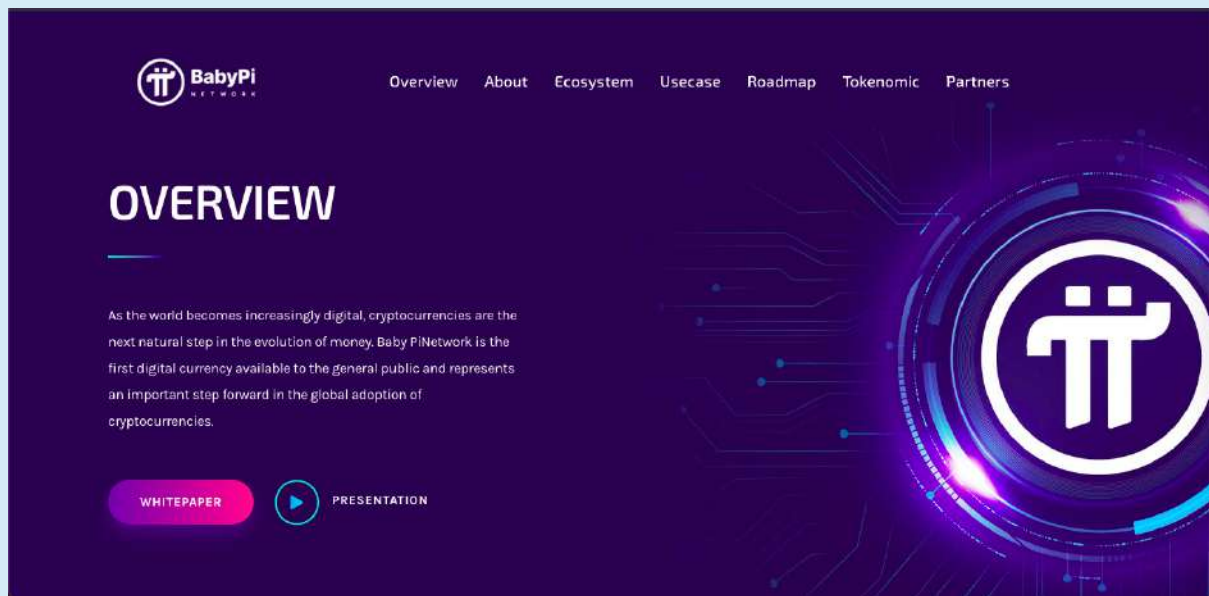

(Renouncing ownership will leave the contract without an owner, thereby removing any functionality that is only available to the owner)

4. transferOwnership

newOwner (address)

(Its function is to change the owner)

**WEBSITE REVIEW**

- **Mobile Friendly**
- **Contains no code error**
- **SSL Secured (By Mua SSL)**

**Web-Tech stack:** jQuery, Bootstrap, Wordpress

Domain .com (hostinger) - Tracked by whois

First Contentful Paint:	1.7s
Fully Loaded Time	25.5s
Performance	68%
Accessibility	93%
Best Practices	75%
SEO	92%

**RUG-PULL REVIEW**

Based on the available information analyzed by us, we come to the following conclusions:

- Locked liquidity (Locked by pinksale)  
*(Will be updated after DEX listing)*
- TOP 5 Holder.  
*(Will be updated after DEX listing)*
- The team hasn't done KYC yet.

## HONEYPOT REVIEW

- Ability to sell.
- The owner is not able to pause the contract.
- The owner can't set fees

Note: Please check the disclaimer above and note, that the audit makes no statements or warranties on the business model, investment attractiveness, or code sustainability. The report is provided for the only contract mentioned in the report and does not include any other potential contracts deployed by the project owner.
